### **How We Can Help**

Every day our office works with constituents to resolve problems encountered with federal agencies. Most often our work is directed to the Social Security Administration, Citizenship and Immigration Services (formerly known as the INS), the IRS, and the Veterans Administration. We've helped thousands of constituents with their questions and their problems ... some enormously complex ... and made breakthroughs in the federal bureaucracy. We set high standards for ourselves to do literally everything we possibly can for our constituents.

The Privacy Act of 1974 requires that Members of Congress and their staff have written authorization before they can obtain information about an individual's case. That's why we need you to write to our Palo Alto office outlining your problem and request that we assist you. Be sure to include your address, your phone number, and the pertinent information (i.e. claim numbers, etc.) If your problem is with the Social Security Administration, we'll need your social security number. If your problem is with the Veteran's Administration, we'll need your case number. If your problem is with the IRS, we'll need your taxpayer identification number or your social security number.

You can also fill out our Privacy Consent Form (which can be obtained from our website or by contacting our office) and fax it to us at (650) 323-3498. Copies of any documents or correspondence from the agency involved is also helpful for us to have, enabling us to do the best job possible for our constituents.

If you have any questions, visit our website, write, email, or call our office. We are always happy to help in any way we can.
